Professional Summary

Computer Science Engineering graduate with a strong foundation in Java Full Stack Development. Hands-on experience in developing web applications using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript. Familiar with building RESTful APIs, integrating databases, and designing responsive user interfaces. Completed an internship working on real-time projects with backend and frontend integration. Quick learner with strong problem-solving skills, seeking an entry-level software developer role.

Skills

Languages: Java, SQL, JavaScript
Backend: Spring Boot, Spring MVC, Hibernate, JDBC, RESTful APIs, MVC Architecture, CRUD Operations
Frontend: HTML5, CSS3, JavaScript, Bootstrap
Database & Tools: MySQL, Git, GitHub, Maven, Postman, Eclipse, VS Code
Core Concepts: Object-Oriented Programming, Problem Solving,API Integration

Experience

Java Full Stack Trainee — **Oct 2025 – Present**
Pentagon Space — *Bengaluru, Karnataka*

- Develop full-stack applications using Java, Spring Boot, Hibernate, JDBC, REST APIs, MySQL and JavaScript.
- Build MVC-based CRUD applications; use Git, GitHub, Maven and Postman for versioning, builds and API testing.
- Solve Data Structures and Algorithms problems to strengthen Java fundamentals and problem-solving skills.

AI & DevOps Engineering Intern — **Oct 2024 – Jun 2025**
Rooman Technologies Pvt. Ltd. — *Bengaluru, Karnataka*

- Executed practical projects with Docker, Kubernetes, Jenkins, Git and cloud technologies.
- Implemented CI/CD pipelines, deployment automation and containerized application deployment workflows.
- Automated build and deployment workflows with Jenkins to streamline application delivery.

Java Full Stack Development Intern — **Oct 2023 – Nov 2023**
Colt Assist Private Limited — *Bengaluru, Karnataka*

- Developed a Teacher Management System using Java, Spring Boot, MySQL, HTML, CSS and JavaScript.
- Designed RESTful APIs for CRUD operations and integrated backend services with a MySQL database.
- Built responsive user interfaces with HTML, CSS and JavaScript connected to backend services.

Projects

Event Management System — *Java | Spring Boot | Thymeleaf | MySQL | JavaScript*

- Engineered a full-stack event management app with CRUD and search functionality using Spring Boot and MySQL.
- Implemented MVC architecture and RESTful APIs; built a responsive UI with Thymeleaf, HTML, CSS and JavaScript.

AgriMithra – Online Agricultural Platform — *Python | Django | MySQL | JavaScript | Bootstrap*

- Developed an e-commerce platform with crop advisory, weather updates, pest management and online input purchasing.
- Implemented responsive interfaces and database integration using Django, MySQL, JavaScript and Bootstrap.

Hospital Management System — *Java | MySQL | HTML | CSS*

- Built a hospital management application with patient registration, appointment booking and disease modules.

Education

Bachelor of Engineering – Computer Science and Engineering — **2021 – 2025**
City Engineering College, Bengaluru — CGPA: 8.04/10

Pre-University Course (PUC), Rural PU College, Kanakapura — 2019 – 2021 | 78%

SSLC, RMPHS, Kanakapura — 2017 – 2019 | 81%

Certifications

- Java Full Stack Development Internship – Colt Assist Private Limited & Ultinity Technologies
- Java Full Stack Development Program – Pentagon Space (In Progress)
- Generative AI Literacy – Simplilearn | MySQL – SoloLearn | Campus Recruitment Program – Seventh Sense
